

Our Client is a leading Tea and Spice Exporting company dedicated to delivering high-quality products to customers. With a focus on innovation, efficiency and continuous improvement they strive to maintain their position as a leader in the food & beverage industry. Currently they seek an energetic and experienced individual with strong integrity and positive attitude, to join their team as

Head of Manufacturing Operations

Location: Colombo.

The successful candidate will be responsible for overseeing all aspects of tea, spice and ancillary production to ensure efficient and high-quality product. The position requires a person who embraces AI, ML and other technologies, with experience in lean, efficient and advanced manufacturing with an agile and continuous learning mindset.

Key Responsibilities:

- Develop and implement strategies to optimize manufacturing operations, improve efficiency.
- Lead and mentor a team of production managers and supervisors to achieve production targets and quality standards.
- Establish and maintain effective production schedules to meet customer demands while minimizing downtime and maximizing resource utilization.
- Collaborate with cross-functional teams, including Engineering, Quality Assurance, and Supply Chain, to drive continuous improvement initiatives.
- Monitor and analyze key performance indicators to identify areas for improvement and implement corrective actions as needed.
- Ensure compliance with safety regulations and quality standards in all manufacturing activities.

Qualifications:

- Bachelor's degree in Engineering, Operations Management, or related field. Master's degree preferred.
- 10+ years of experience in manufacturing operations management, with a proven track record of success in a leadership role.
- Strong understanding of manufacturing processes, equipment, and related technologies.
- Excellent leadership and communication skills, with the ability to motivate and inspire a team.
- Proven ability to develop and implement strategies to improve operational efficiency and drive continuous improvement.
- Knowledge of quality management systems and safety protocols

An attractive and negotiable remuneration package will be offered based on qualifications, experience and competence.
