TURN RISK INTO RESILIENCE

Join us as
Manager Technology Risk

Are you passionate about mitigating technological threats and ensuring operational resilience? Do you thrive in dynamic environments where innovation meets security? If so, we have the perfect opportunity for you.

The Job Role

- Review and maintain the Framework on Technology Risk Management and Resilience of the Bank to identify gaps and ensure such gaps are addressed by liaising with IT and other departments in order to manage risk tolerance levels as per the requirements stipulated in Direction 16 of 2021 on regulatory framework on technology risk and resilience.
- Conduct comprehensive technology risk related risk assessments to identify vulnerabilities and potential threats which may impact the bank.
- Collaborate with cross-functional teams to implement effective risk mitigation measures for the identified technology related risks.
- Stay abreast of emerging technologies and evolving regulatory requirements to proactively address risks.
- Assist Operational Risk Management units to identify technology related gaps in departments/branches.
- Provide leadership and guidance on technology risk management best practices.
- Monitor Risk and Control Self-Assessment (RCSA) process for the technology driven banking products and services such as payment cards and electronic banking, and information technology and information security related service delivery functions of the Bank.
- Conduct a root-cause analysis on discrepancies identified during user access privilege reviews and suggest appropriate internal control enhancements to the Information Security Committee.
- Take part and provide input for assessment and evaluations of the vendors/third parties related to software/system applications.

The Person

- Possess a minimum of 07 years of experience with a minimum of 2 years' experience in a similar capacity or Information security/cyber-security.
- Bachelor's degree in or a professional qualification in ICT/Information Security/Cyber Security
- Proven experience in technology risk management, information security or cybersecurity.
- Strong analytical skills with the ability to assess complex technical environments.
- Excellent communication skills and interpersonal skills
- Relevant certifications such as CISSP, CISM, or CRISC are a plus.

Rewards

The right candidate can look forward to an attractive remuneration package inclusive of staff loan benefits at concessionary interest rates and career prospects.

Applications must be forwarded to jobs@unionb.com with the names of two non-related referees on or before **20th May 2024**. The email subject line must state **Manager – Technology Risk.** All applications will be treated with strict confidence. Only shortlisted applicants will be notified.
