

Join the market leader

As our nation's most trusted, acclaimed and progressive life insurance company, at Ceylinco Life, we help millions of Sri Lankans de-risk their lives by providing need-based life insurance solutions to achieve their goals in life and become better leaders in their own right. As the market leader, we are exceptionally capable of crafting more leaders to take on life at work or home, whilst creating successful partnerships with all our stakeholders and recognising and rewarding members of the Ceylinco Life family. We call this A Relationship for Life. It's the reason for our success - and yours. Our most important component is our team of professionals, each, dedicated to moving ahead, and providing the best of service. Currently a vacancy has emerged in our **Information Communication & Technology Department** for the post of **Deputy Chief Information Officer**.

Deputy Chief Information Officer

The Person

Dynamic individual below 50 years of age with the proven track record in the IT sector. Excellent leadership, project management and interpersonal skill to deal with internal and external stakeholders such as software and hardware vendors and other service providers. Considerable management skills are required to successfully perform the planning, directing, reporting and administrative responsibilities of this position

The Job

- Working alongside the CIO to provide leadership to the entire digitalization drive of the organization and use digitalization as a tool to enhance brand image
- Oversee the technological infrastructure in the organization to ensure optimal performance
- Timely sourcing and guiding of IT staff and IT service providers
- Ensuring that KPIs of the IT department are in line not only with the financial perspective, but also with leading indicators of balance scorecard covering customer perspective, technological innovation perspective, and internal business perspective
- Developing and executing the information systems strategy, information technology strategy, IT policies and procedures in line with the business strategy and goals of the company in a timely manner
- Coordinating and managing with various project stakeholders to ensure that user requirements are satisfied by system developers and issues reported are fixed on time
- Analyzing costs, value generation, and ensuring timely corrective action
- Ensuring adequate information security systems are in place to protect from both internal and external threats in a timely manner
- Managing disaster recovery and business continuity plans in a timely manner
- Implementing measures for problem identification and resolution
- Ensuring zero error service quality standards
- Complying with CBSL/IRCSL guidelines and other regulatory requirements

Qualifications & Experience

- Degree in Computer Science / Engineering or equivalent professional qualification with a postgraduate qualification in IS/IT or related discipline
- Minimum 10 years of experience in the IT sector, with at least 5 years in a senior/middle level position in IT management in a financial institution, though not essential, will be a definite advantage

Reward

- An attractive remuneration package with many fringe benefits awaits the right candidate

If you feel that you measure up to our requirements, please send your resume to the email address given below, with contact details of two non-related referees to reach us within 10 days of this advertisement. Please indicate the post in the subject line of the e-mail.
